

K-LOVE radio provides local community services, including assistance directions and local events, as well as providing topics of state and national interest. The programming on KLOVE supports wholesome, family values; provides commentary and music that is presented without foul language or sexual innuendo, and encourages all people, regardless of any church affiliation, to live in a positive, productive manner. Loss of the K-LOVE signal to LPFM stations would be detrimental to the community at large, as well as myself. Believe me, the programming at K-LOVE is in the public interest--locally, regionally, nationally and internationally!
